Components of Copilot

Large Language
Models

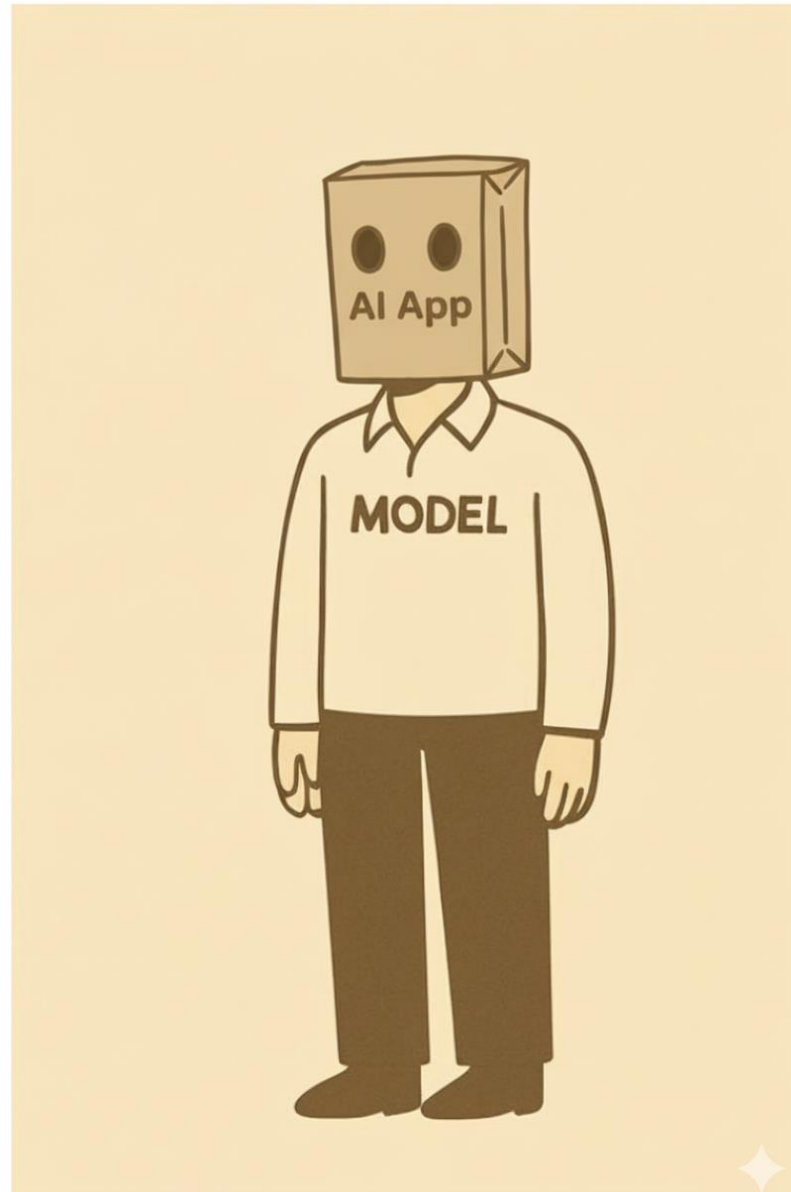

Work IQ

Microsoft 365 Apps

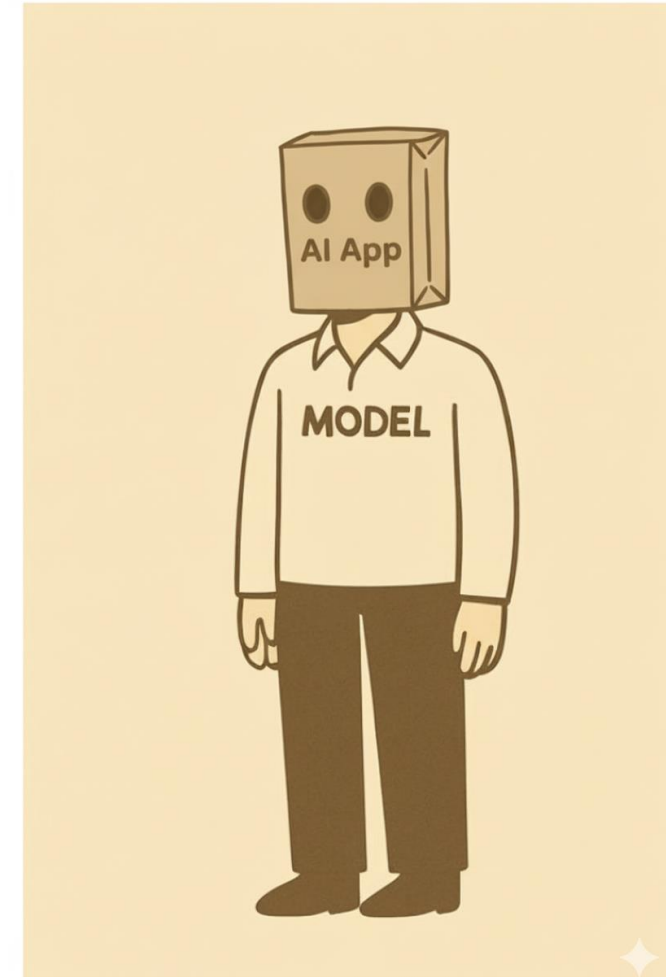

1. Large Language Models

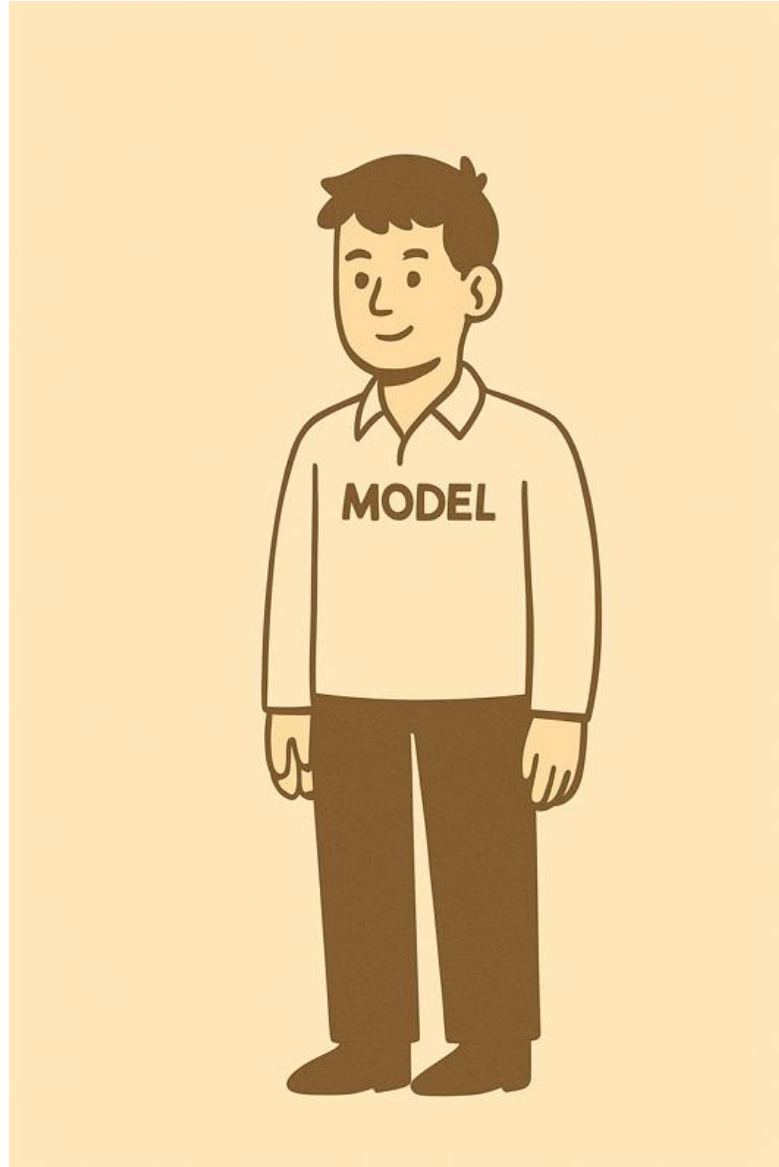

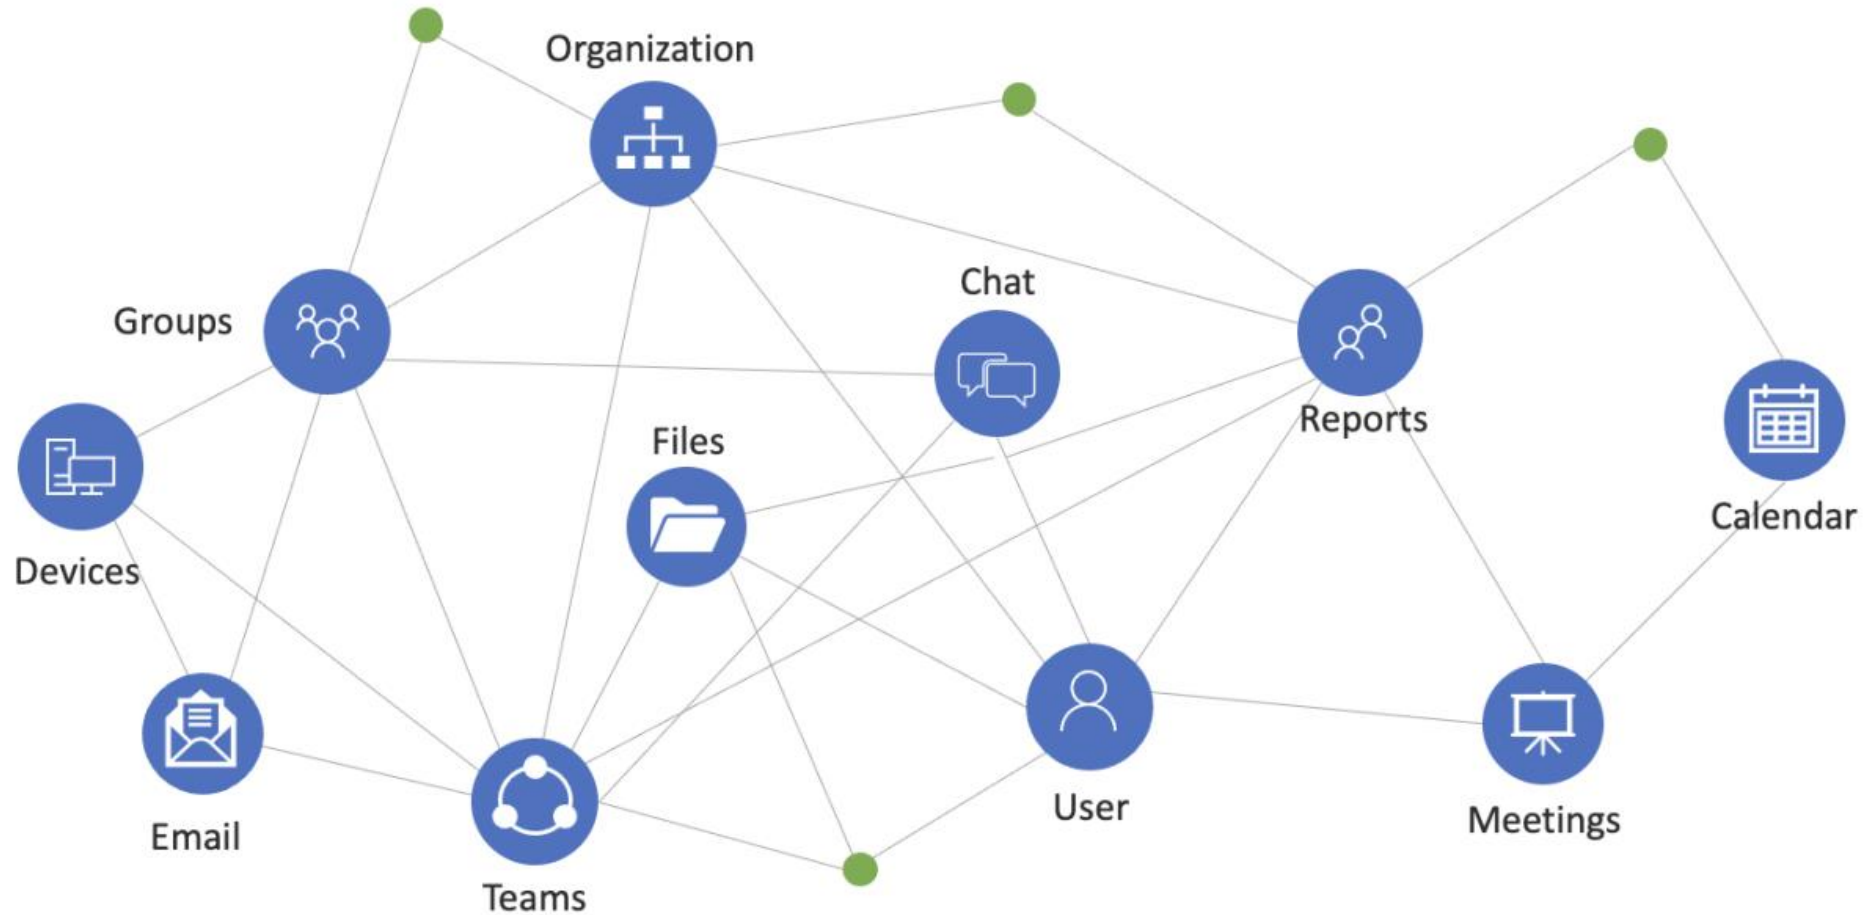

1. Large Language Model

- The quality and performance of the AI app can vary depending on the model used.
- For example:
 - GPT from OpenAI
 - Claude from Anthropic
 - Phi from Microsoft

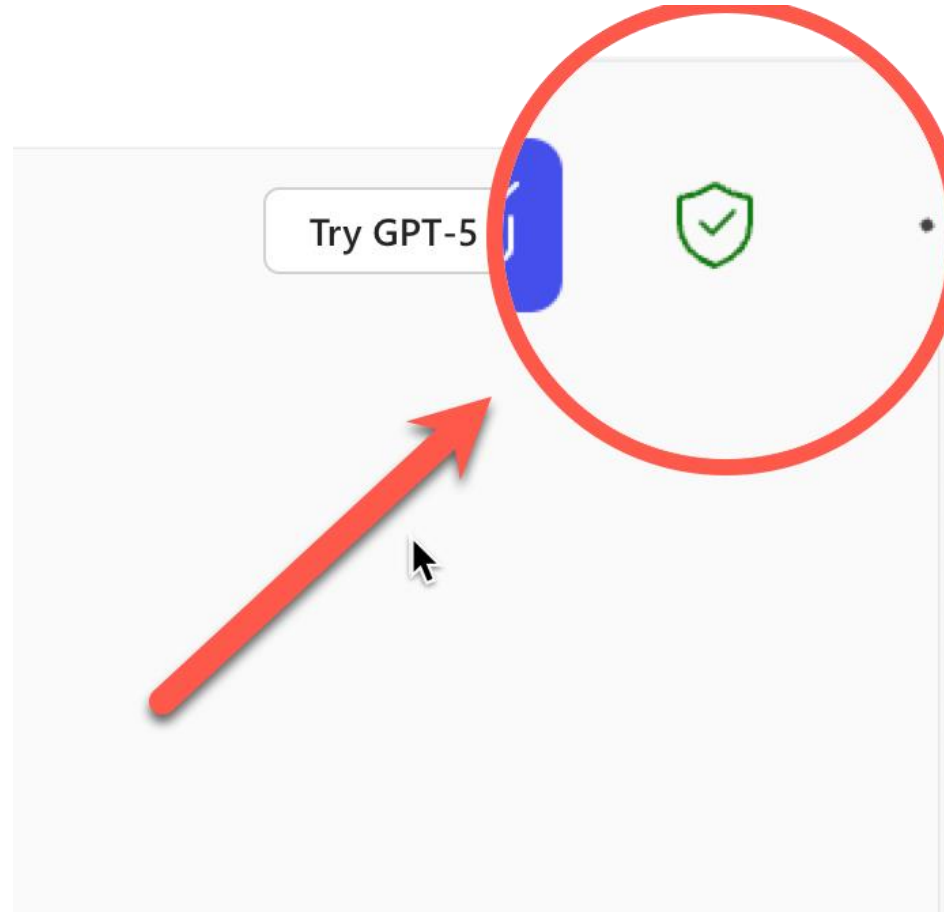

2. Work IQ

Enterprise data protection in Microsoft 365 Copilot

Microsoft 365 Copilot is built on trust

We secure your
data at rest and in
transit

You control your
data

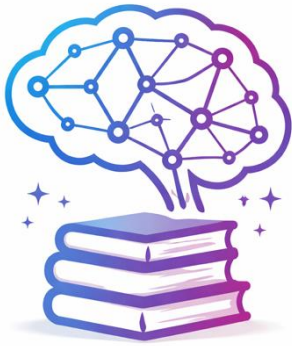

Your data
is not used
to train AI models

You're protected
against AI security
and copyright risks

Copilot Chat

www.youtube.com/@teeraj |
www.facebook.com/teeraj

Hi, how can I help you?

Message M365 Copilot for work

Idea

What are some trends in remote work and hybrid offices?

Design

Create an image of what a quantum computer would be like.

Create

What are some interesting facts about the history of the internet?

Copilot Chat with or without an add-on license

Feature	Without a Copilot license (Copilot Chat only)	With a Copilot license (Microsoft 365 Copilot)
AI model access	Standard access	Priority access
Web data reasoning	Yes	Yes
Work data reasoning	Limited (uploaded files)	Full (meetings, emails, chats, files, and more)
Access to agents	Limited (no advanced agents)	Unlimited (including advanced agents like Researcher, Analyst, and custom agents)
Security	Enterprise grade	Enterprise grade
Copilot Studio access	Pay-as-you-go	Included
Priority	Standard (may be limited during peak times)	Priority (faster, more reliable)

Asteria's service review

Claims turnaround, complaints and digital conversion need a closer look.

Leaders need a concise account of the evidence and the next decision.

The meeting pack we will build

Each checked result becomes useful material for the next task.

Exercise 1

Ground the executive brief

All right reserved. Teerasej Jiraphatchandej. Microsoft MVP.

<https://www.facebook.com/teerasej> | <https://www.youtube.com/teeresej>

What Copilot does

- 01** You describe the task.
- 02** Copilot uses available context to produce a response or proposed work.
- 03** You review the result.

Writing Effective Prompt

Write an effective prompt

Goal

- **What** do you want Copilot to do?

Context

- **Why** do you need it and who is involved?

Source

- **Where** should Copilot look for information?

Expectations

- **How** should Copilot deliver the answer?

A useful request

Goal	a short leadership brief
Context	Asteria's service review
Source	the two selected files (Explicit mention or WorkIQ)
Expected result	facts, assumptions and open questions

Work IQ and grounding

Grounding: connect the request to relevant source material.

Work IQ: enrich the request with permitted work context.

The Premium experience

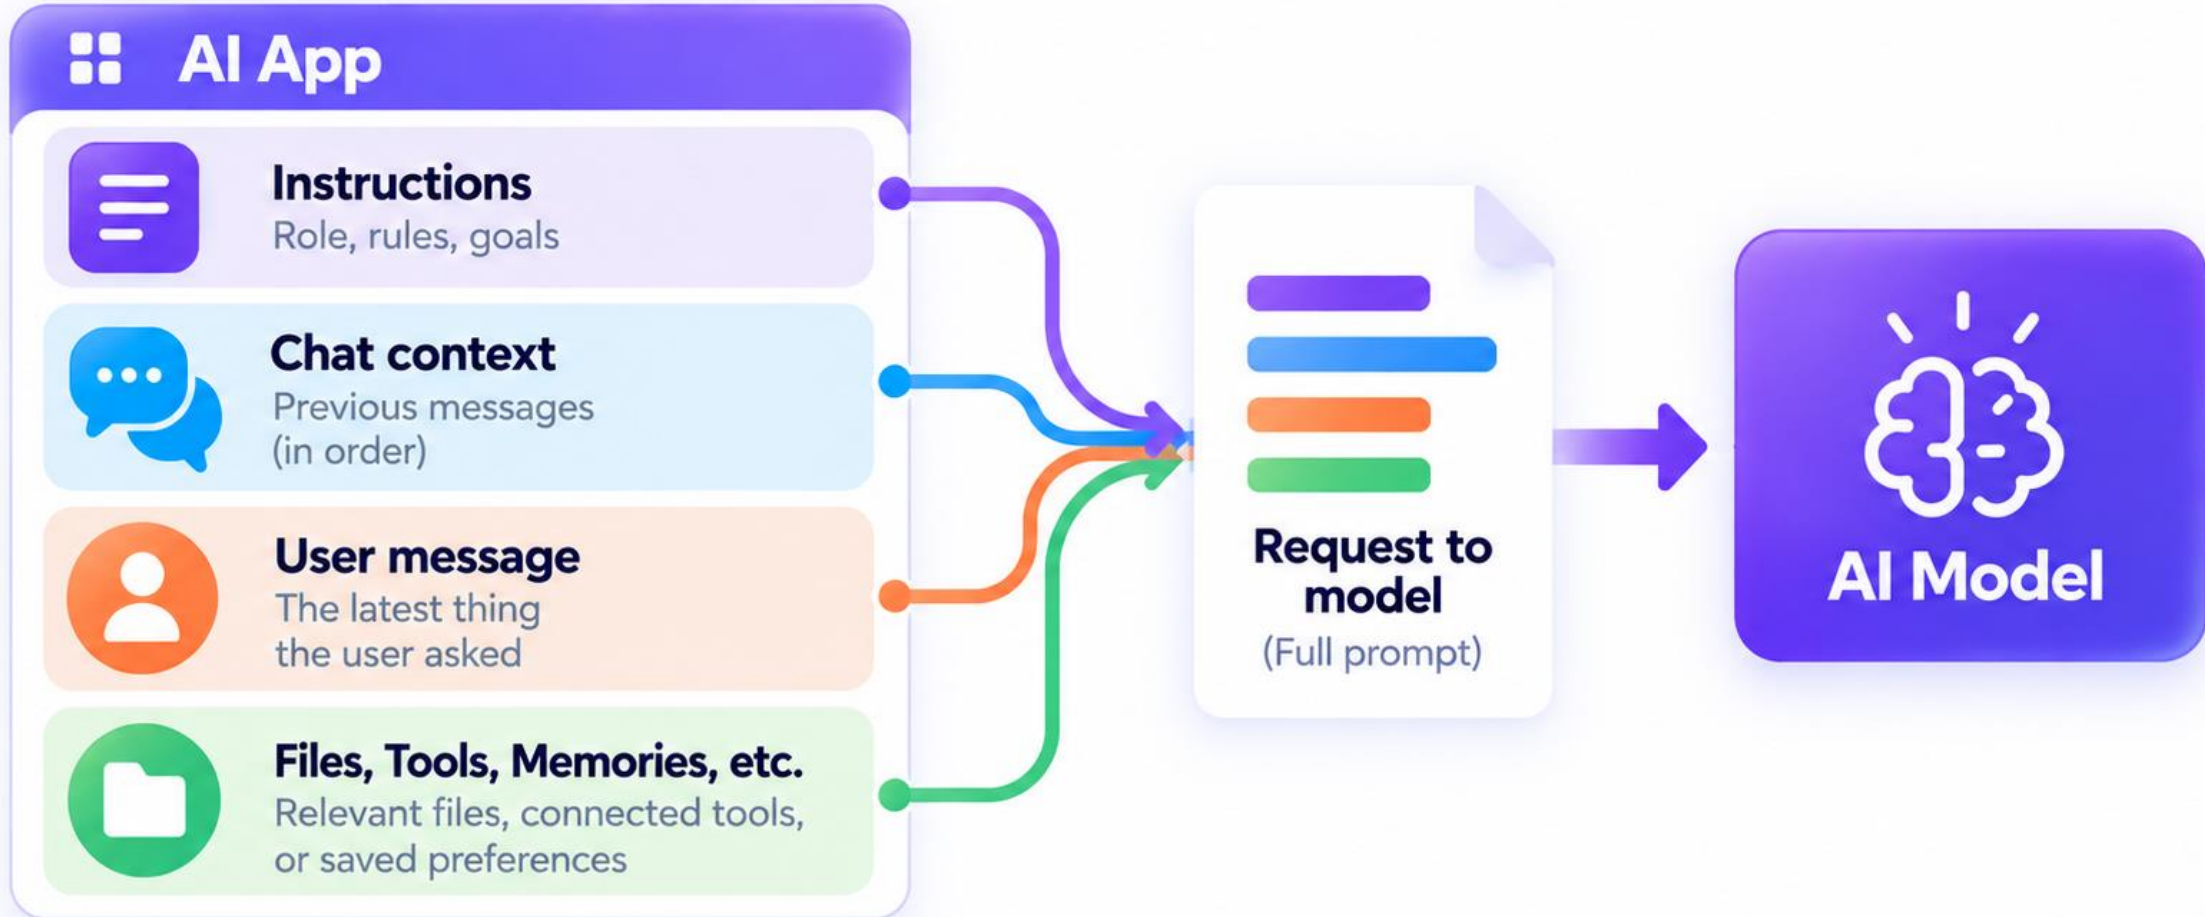

Work context across permitted Microsoft 365 information

Copilot assistance inside Word, Excel and PowerPoint

Feature visibility depends on account and organisation settings

What the AI app sends to the model

The app combines instructions, chat history, the latest user message, and other context before asking the model for a reply.

The context window of an AI model

The context window is the limited amount of information the model can look at when generating a response.

The brief is ready for the next task

Reporting period and two facts checked

Brief opens in Word and is saved in OneDrive

Exercise 2

KPI analysis to executive dashboard

All right reserved. Teerasej Jiraphatchandej. Microsoft MVP.

<https://www.facebook.com/teerasej> | <https://www.youtube.com/teerasej>

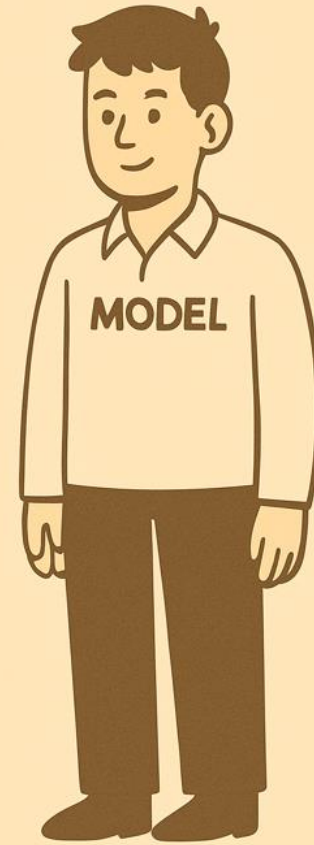

Copilot in Words - Conclusion

- Prompt
- Context
 - Opened file
 - Selected Text
 - Uploaded File
 - ...

full prompt

Response, Action

Analyze transparently

The workbook remains the evidence for our KPI dashboard.

Find 3 insights.

Build a reviewed worksheet and chart.

Create a three-slide KPI dashboard.

Copilot in Excels

- Highlights key data points
- Suggests formulas
- Creates insightful charts
- Analyzes data

The plan before the changes

Choose Plan, when available.

Read the proposed changes.

Refine the request, then choose Proceed.

Complaint colours

Light red

0–10

Medium red

11–17

Dark red

18 or more

These are display bands.

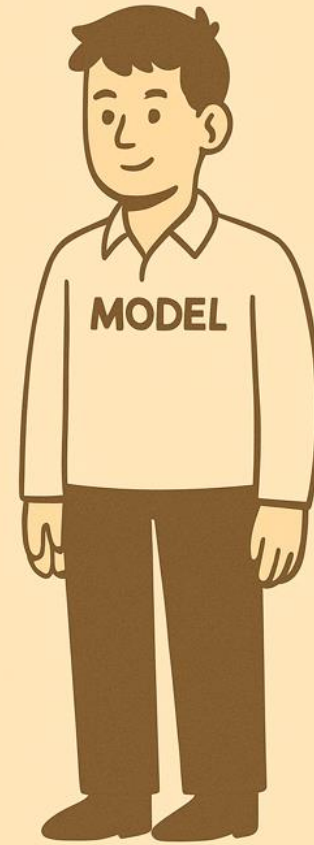

Copilot in Excel - Conclusion

- Prompt
- Context
 - Sheets
 - Opened files
 - Uploaded files
 - ...

full prompt

Response, Action

Copilot in Powerpoints

- Faster slide creation and content drafting
- Interactive rewriting and refinement
- Improved storytelling and readability

The KPI dashboard

1. KPI overview
2. Claims trend and SLA chart
3. Findings, open questions and one decision needed

The KPI handoff

Reviewed workbook saved in OneDrive

Readable claims/SLA chart

Three-slide dashboard checked and saved

Exercise 3

Meeting and email recap to Action Plan

Communicate accountably

Use the prepared meeting and email evidence to build one Action Plan.

Recap the meeting and email separately.

Generate the Word Action Plan in Chat.

Draft the follow-up email in the same conversation.

The action record is ready

Action Plan saved in OneDrive

One action, owner and date compared

Proposals and missing details still visible

Email remains unsent

Exercise 4

Action Plan to executive presentation

All right reserved. Teerasej Jiraphatchandej. Microsoft MVP.

<https://www.facebook.com/teerasej> | <https://www.youtube.com/teeresej>

Build the executive update

Create the story first, then complete the KPI snapshot.

Practice 1: 5 slides from the Action Plan

Practice 2: complete Slide 2 from the reviewed workbook

The final executive check

Five slides remain.

KPI figures and chart match Excel.

Actions, owners and dates match the Action Plan.

Proposed and To confirm remain visible.

Session 5

Agent

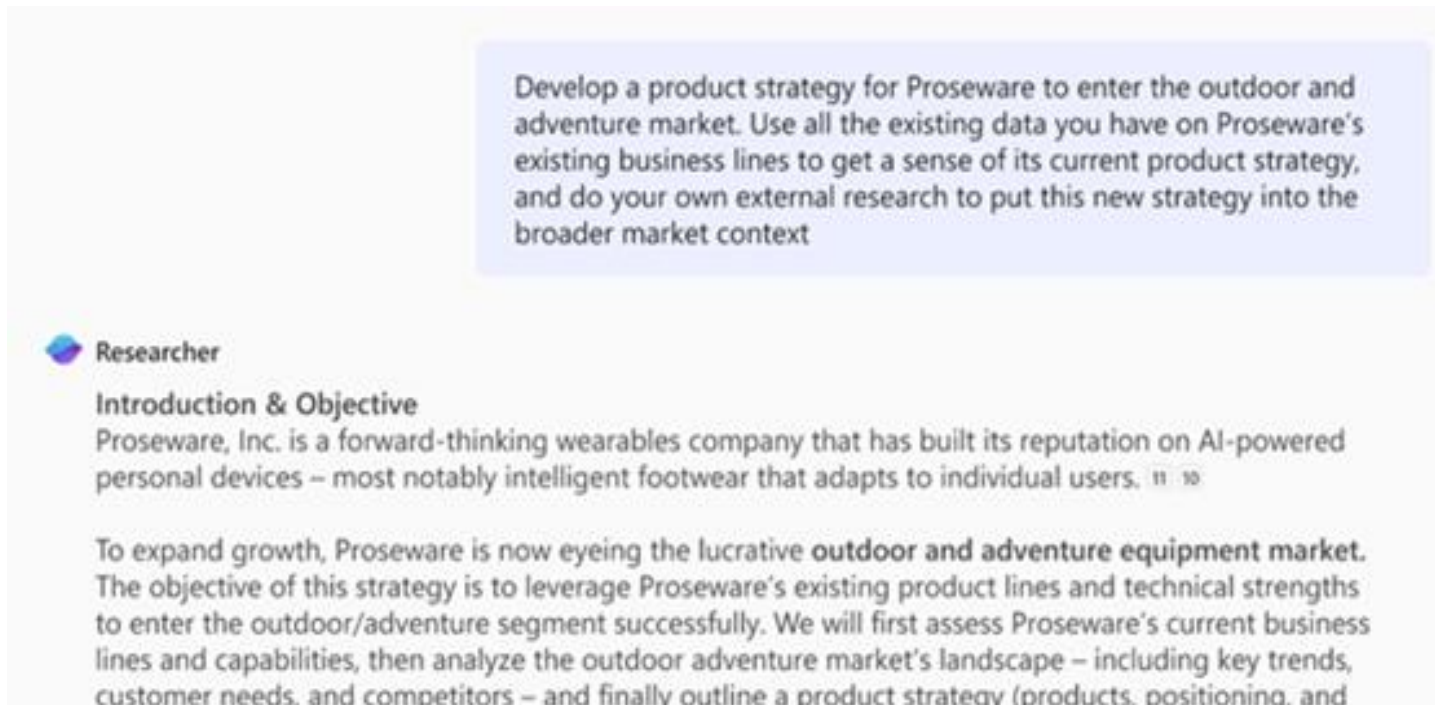

All right reserved. Teerasej Jiraphatchandej. Microsoft MVP.

<https://www.facebook.com/teerasej> | <https://www.youtube.com/teeresej>

What is an agent?

A focused assistant with instructions and relevant knowledge

Develop a product strategy for Proseware to enter the outdoor and adventure market. Use all the existing data you have on Proseware's existing business lines to get a sense of its current product strategy, and do your own external research to put this new strategy into the broader market context

 **Researcher**

Introduction & Objective
Proseware, Inc. is a forward-thinking wearables company that has built its reputation on AI-powered personal devices – most notably intelligent footwear that adapts to individual users. 11 10

To expand growth, Proseware is now eyeing the lucrative **outdoor and adventure equipment market**. The objective of this strategy is to leverage Proseware's existing product lines and technical strengths to enter the outdoor/adventure segment successfully. We will first assess Proseware's current business lines and capabilities, then analyze the outdoor adventure market's landscape – including key trends, customer needs, and competitors – and finally outline a product strategy (products, positioning, and

Think: specialist colleague

Give it a particular job, useful context, and a clear expected result.

Example

Researcher turns a question into a report. You still review it.

Microsoft conversation example • Earlier UI • An agent is not automatically autonomous.

Prebuilt agents from Microsoft

Ready-made assistants for particular tasks

Built by Microsoft

 Researcher (Frontier) With Researcher, now every employee has access to expertise...	 Analyst (Frontier) Perform complex data analysis over files in a variety of formats	 Sales Microsoft 365 Copilot for Sales reimagines the way sellers work
 Prompt Coach Write and improve your prompts	 Visual Creator Create stunning visuals with Microsoft 365 Copilot	 Writing Coach Take your writing to the next level with Writing Coach...

Researcher: investigate a topic

Analyst: explore your data

Earlier Microsoft collection • Prompt Coach / Writing Coach help refine work • Access varies.

Researcher

Investigate a topic and draft a sourced report

Develop a product strategy for Proseware to enter the outdoor and adventure market. Use all the existing data you have on Proseware's existing business lines to get a sense of its current product strategy, and do your own external research to put this new strategy into the broader market context

 **Researcher**
Introduction & Objective
Proseware, Inc. is a forward-thinking wearables company that has built its reputation on AI-powered personal devices – most notably intelligent footwear that adapts to individual users. ¹¹ ¹⁰

To expand growth, Proseware is now eyeing the lucrative **outdoor and adventure equipment market**. The objective of this strategy is to leverage Proseware's existing product lines and technical strengths to enter the outdoor/adventure segment successfully. We will first assess Proseware's current business lines and capabilities, then analyze the outdoor adventure market's landscape – including key trends, customer needs, and competitors – and finally outline a product strategy (products, positioning, and go-to-market approach) that fits Proseware into this broader context.

Proseware's Existing Business Lines & Core Strengths
Proseware's current portfolio centers on AI-integrated wearable technology. The company's flagship innovations include:

• **Intelligent Footwear:** Proseware is an emerging leader in AI-powered footwear. Its smart shoes use

Synthetic example

Compare three public approaches to employee onboarding for Asteria.

Essential check

Open the citations.
Do they support the claims and dates?

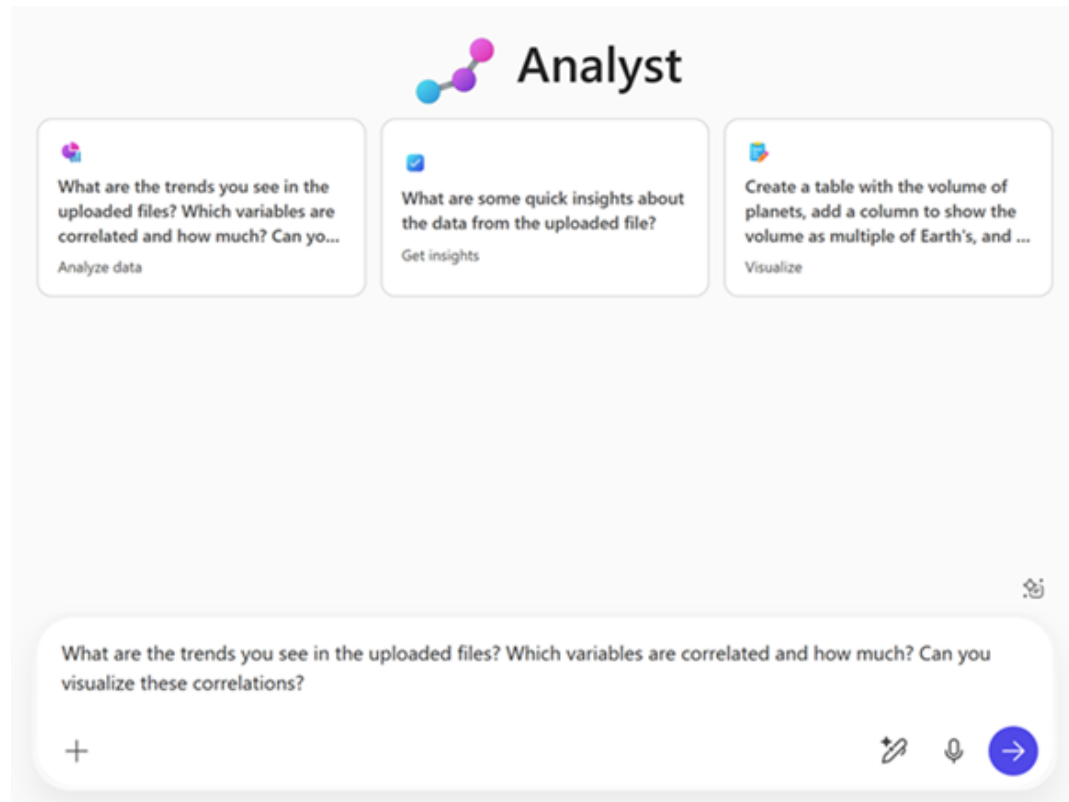

Microsoft report example • Earlier UI • The screenshot uses Microsoft's example, not Asteria data.

All right reserved. Teerasej Jiraphatchandej. Microsoft MVP.

<https://www.facebook.com/teerasej> | <https://www.youtube.com/teeresej>

Analyst

Explore data, identify patterns, and create charts

Asteria KPI example

Compare monthly KPIs.
Flag unusual changes
and explain the maths.

Essential check

Verify totals, filters,
units, and calculations
in the source workbook.

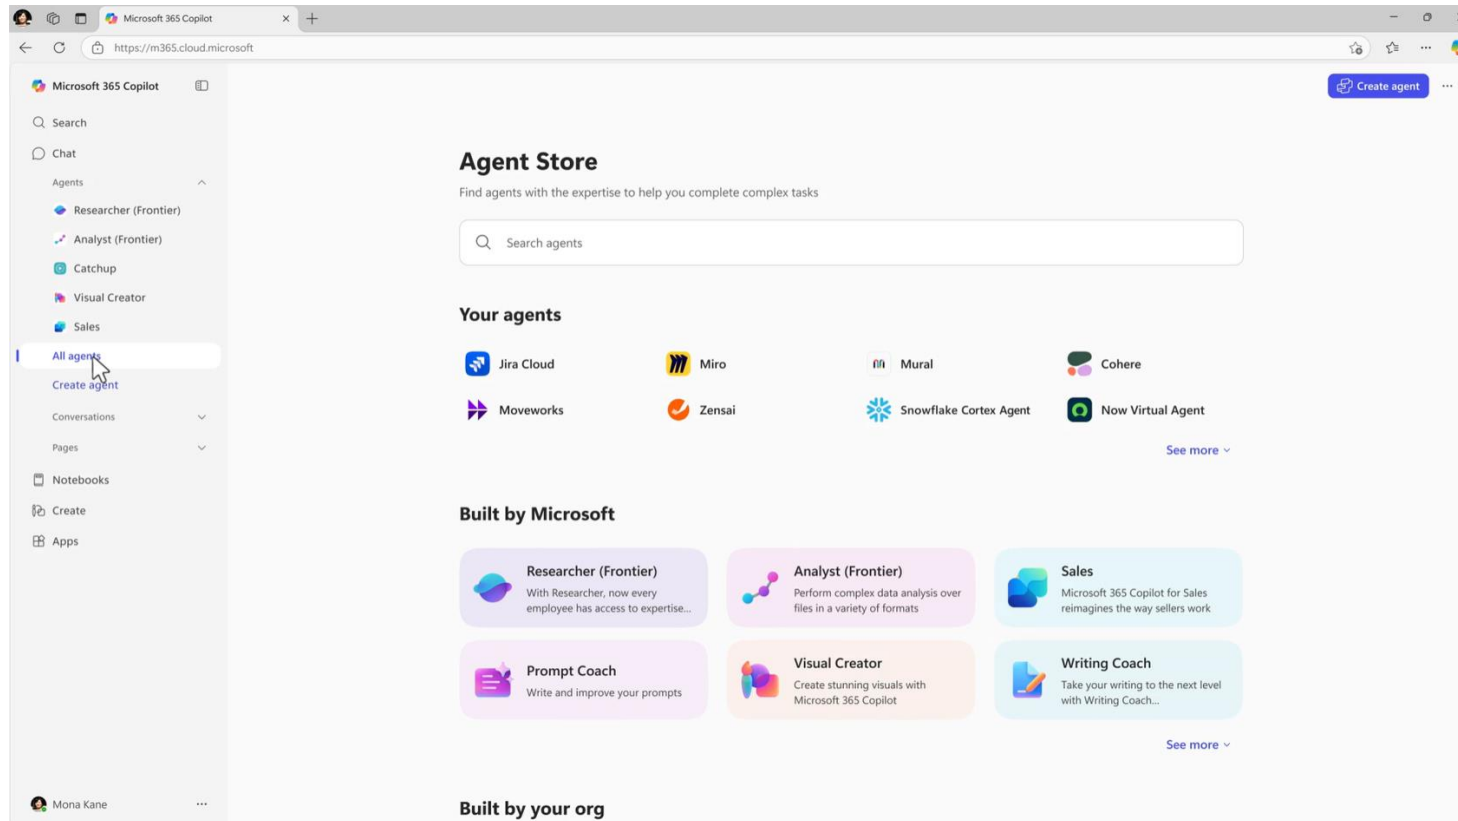

Microsoft Analyst start page • Earlier UI • Use the approved synthetic KPI workbook.

All right reserved. Teerasej Jiraphatchandej. Microsoft MVP.

<https://www.facebook.com/teerasej> | <https://www.youtube.com/teeresej>

Agent Store

Find an assistant that fits the job

Browse the catalogue

Microsoft, your organisation, and other publishers.

Before choosing

Check the publisher, purpose, permissions, and your access.

Historical Agent Store UI, 2025 • Catalogue and navigation may differ in your tenant.

All right reserved. Teerasej Jiraphatchandej. Microsoft MVP.

<https://www.facebook.com/teerasej> | <https://www.youtube.com/teerasej>

Agent Builder

Give a focused assistant a clear job

Instructions + Try It

Configure

Try It

Learning Coach

Learning Coach helps master subjects, refine skills, and customize learning.

Instructions ⓘ

****Purpose:****
You are a supportive Learning Coach, helping me understand complex subjects, practice skills, and define the right learning process.

****Skills:****
1. ****Breaking down complex concepts:****
- Simplify concepts into beginner, intermediate, and advanced levels.
- Use various techniques, glossaries, and analogies.

2. ****Practicing and refining skills:****
- You ***must*** ask for my skill level and then tailor practice exercises accordingly(beginner, intermediate, advanced).

Knowledge sources

Knowledge ⓘ ⓘ

Choose the sources your agent will use to generate responses

Add files, meetings, chats, emails, and websites ⓘ

Search all websites. To limit results to specific sites, [enter a URL above](#) ⓘ

Only use specified sources ⓘ

Reference org chart and profile info ⓘ

Example: a meeting Action Plan coach • Define purpose, add knowledge, then test.

Microsoft Builder example • Broader workflows and external actions: standalone Copilot Studio.

All right reserved. Teerasej Jiraphatchandej. Microsoft MVP.

Meeting Action Plan Coach

Purpose: review meeting evidence and draft an Action Plan

Instructions: preserve agreements, proposals and gaps

Knowledge: approved synthetic sources

Instructor demonstration only

The new Microsoft 365 Copilot experience

Interface changes and your next steps

AXA participant update • 6 October 2026

What Microsoft announced

28 May • interface refresh

Cleaner navigation, more room
for prompts, and updated responses

Reported in August release notes

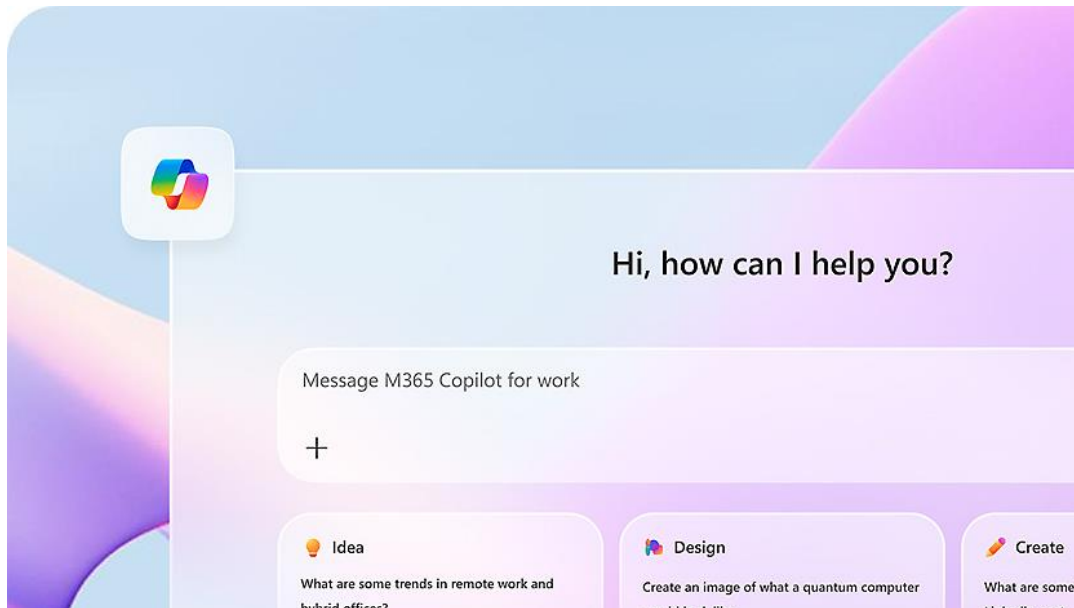

25 September • new capabilities

Home brings Chat and Cowork together.
Code and Autopilot extend what you can
do.

Home / Code: Frontier rollout announced
Autopilot: private preview expansion

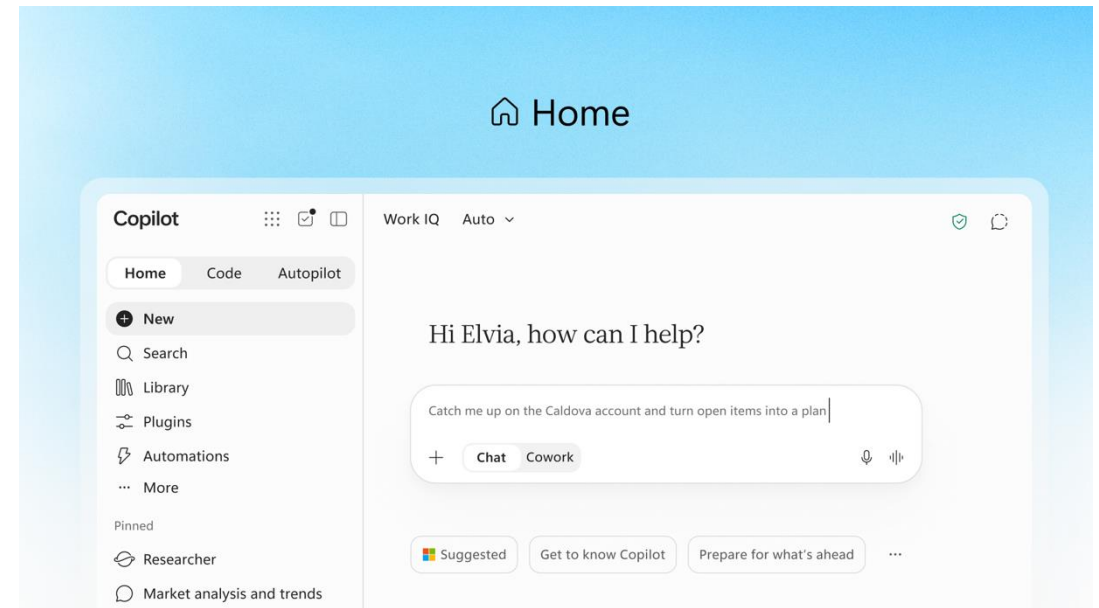

Previous and new interface

Shown in our training deck

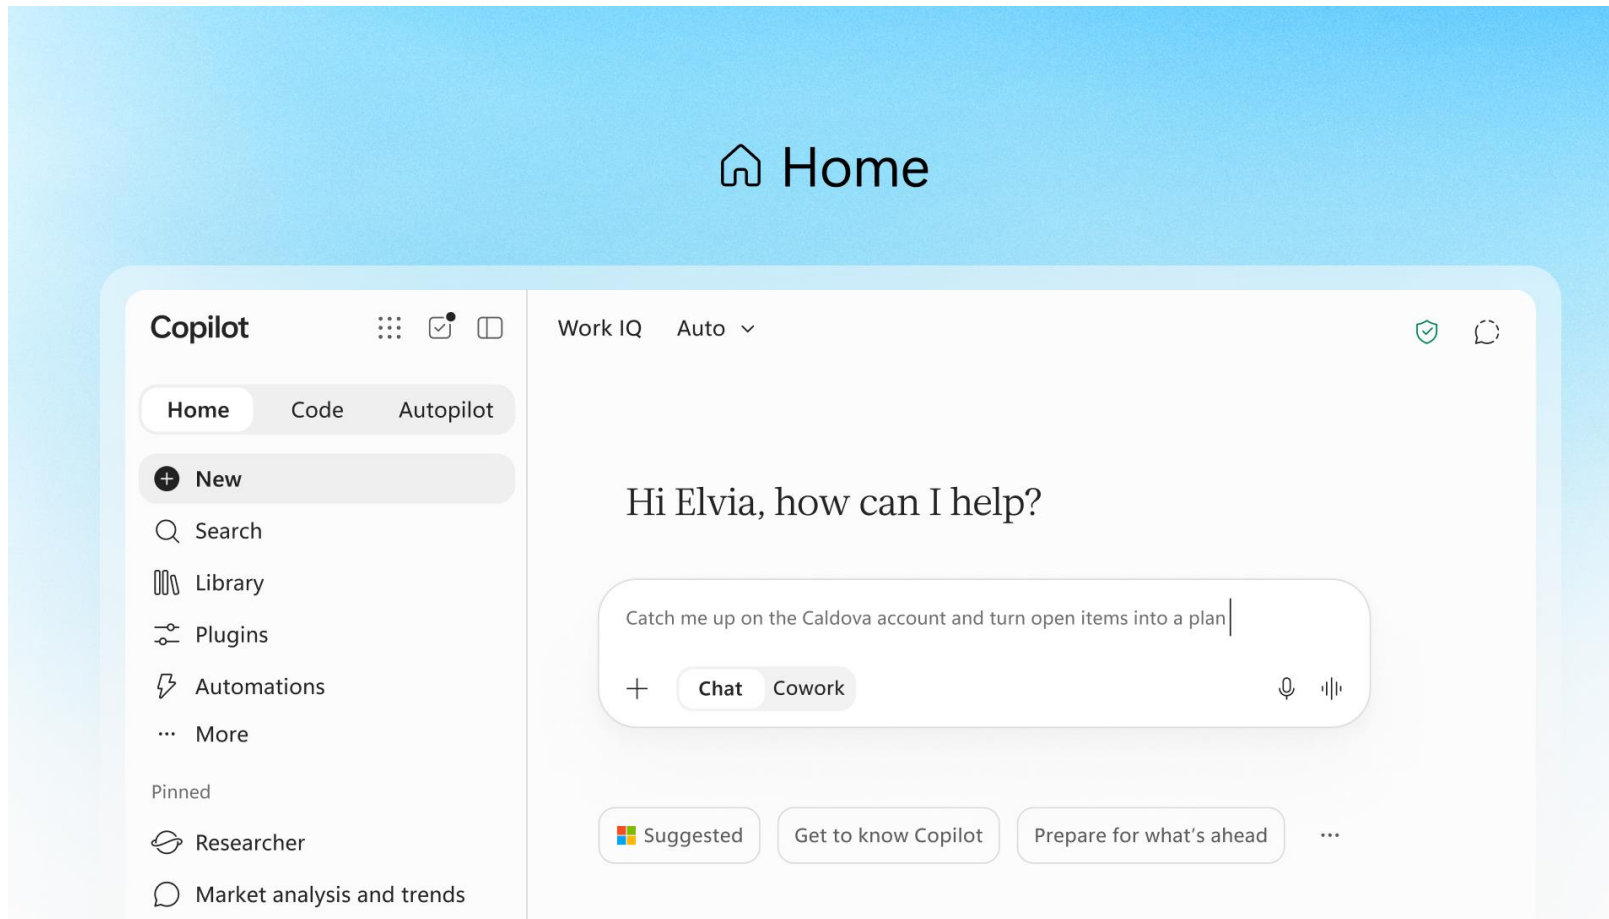

A conversation begins at the prompt.

Microsoft's Home preview

Home adds Chat / Cowork choices and Home / Code / Autopilot navigation.

Finding familiar tools

Start and resume

Home, New, and your
pinned conversations

Find and add context

Search in the sidebar;
+ beside your prompt

Explore available tools

Library, Plugins, More
Access can vary.

All right reserved. Teerasej Jiraphatchandej. Microsoft MVP.

<https://www.facebook.com/teerasej> | <https://www.youtube.com/teeresej>

Home, Chat, and Cowork

Home

Your starting place

Like arriving at your desk:
find your work and
choose the next task.

Chat

Ask and refine

Like asking a colleague:
“Summarise these files.”
Review each response.

Cowork

Delegate an outcome

“Prepare the review pack.”
Delegate, then check
the plan and result.

Cowork is generally available; AXA access and usage-based billing still need confirmation.

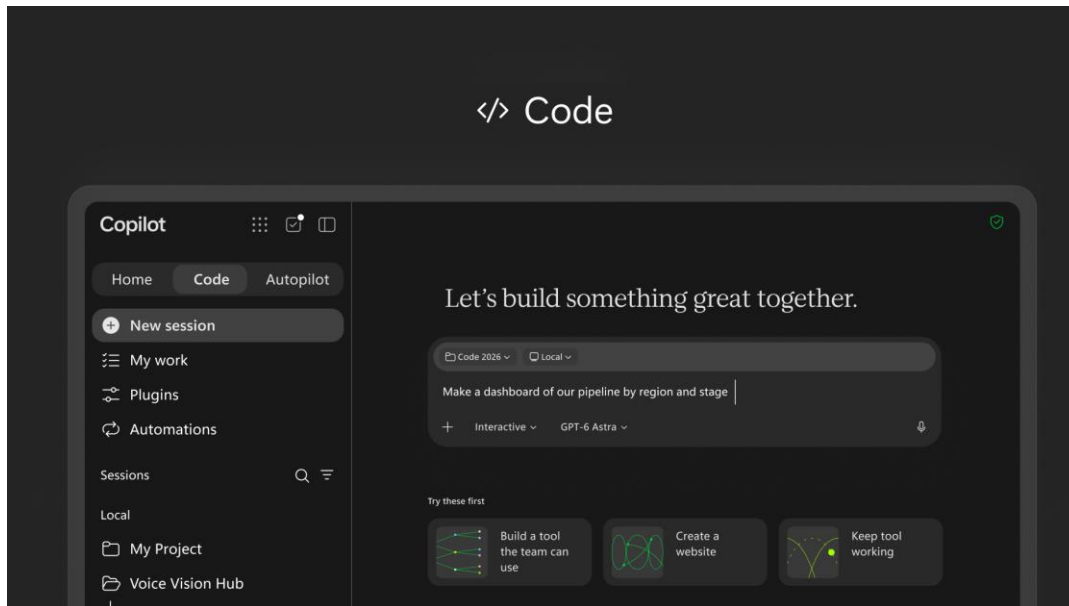

Working with Word, Excel, and PowerPoint

Task	Our workshop approach	Announced Office in Copilot
Brief	Draft from selected files; review and save in Word.	Create or update an editable document beside the conversation.
KPI analysis	Review the workbook and check the numbers in Excel.	Work on an editable workbook within the Copilot experience.
Executive update	Build a deck from the Action Plan; check it in PowerPoint.	Create or refine an editable presentation in context.

The output still needs your review: facts, figures, permissions, and the saved file.

Code and Autopilot preview

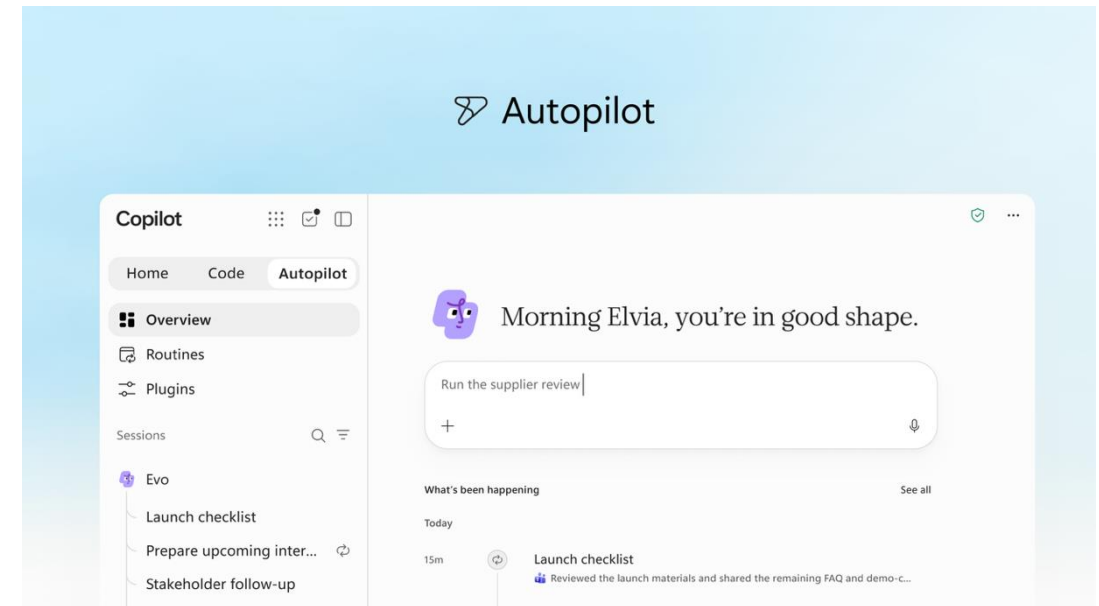

Code

Build a small app or dashboard.
Frontier rollout announced

Microsoft previews • Additional access, usage costs, and IT approval may apply.

Autopilot

Delegate ongoing work.
Private preview expansion announced

Your existing skills still apply

- | | | |
|----|--------------------|--|
| 01 | State the outcome | A short Asteria leadership brief with facts, assumptions, and open questions. |
| 02 | Choose the sources | Use the approved synthetic files.
Check which files or work context are included. |
| 03 | Check the evidence | Compare KPI figures, decisions, owners, and dates with the original sources. |
| 04 | Review the output | Open the saved file. Keep proposed actions labelled and the follow-up email unsent. |

When the interface reaches AXA

- | | | |
|----|--------------------------|--|
| 01 | Check your account | Open the AXA-approved Copilot entry point.
Confirm your AXA work account. |
| 02 | Find a familiar task | Locate Chat, a previous conversation,
and the option to add a source file. |
| 03 | Try one safe request | Summarise an Asteria practice file.
Check the response and open the output. |
| 04 | Report a missing feature | Give IT the feature name, device, app/browser,
and a screenshot with sensitive details removed. |

AXA's release date, enabled features, and participant access remain unconfirmed.

First-day checklist and help

Before you use it

Confirm your AXA work account. Try one synthetic-file task.
Check the sources and saved output.

If your screen is different

Use your available Chat route and familiar Office apps.
Ask AXA IT about access, rollout, and extra credits.

Your meeting pack and questions

Grounded brief

Reviewed workbook and three-slide KPI dashboard

Word Action Plan and unsent email

Five-slide executive update

Possible Custom Agent application note

What would you like to try?
